

# *2025/26 Marketing Report*

## **Arizona**

[provenwinners.com](https://provenwinners.com)

# Survey Results

Proven Winners is leading the way with consumer research, conducting multiple surveys per year to gather insights on houseplants, bulbs, perennials and more. With an average completion rate of 95%, Proven Winners gardeners are providing us with deeper insights into shopping habits and plant preferences. For more information on surveys, contact **Jessica DeGraaf** - [jessica@provenwinners.com](mailto:jessica@provenwinners.com).

**TOTAL RESPONDENTS: 7,832**

## RESPONDENT GENDER IDENTITY

## RESPONDENT AGES

## TOP CHALLENGES FOR GARDENERS

Consumers are shifting to be more price conscious as cost was the most common gardening challenge they faced. Fewer consumers stated that lack of knowledge was a challenge; we attribute this to their ability to find gardening content online.

**Cost**

**Weather**

**Finding a Specific Variety**

## WHERE GARDENERS SHOP

More than 76% of respondents shop at IGCs for plants, while 46% shop at big-box stores. There was significant overlap, with 34% reporting that they shop at both.

**IGCs**

**Big Box Stores**

**Other**

**Online**

## DISTANCE TRAVELED

Consumers stayed closer to home this year with fewer respondents driving more than 50 miles to visit a garden center for the second year in a row. 10-25 miles is ideal for most consumers.

## NATIONAL PLANT AWARENESS

Over 50% of respondents were familiar with Proven Winners' National Plants of the Year program mainly due to social media and content creators as well as provenwinners.com.

## WHERE GARDENERS PLANT ANNUALS

Across all demographics, containers were the most popular way to plant annuals.

**Containers**  
83.7%

**Landscape Beds**  
59.7%

**Hanging Baskets**  
45.4%

**Window Boxes**  
17.7%

# 2026 National Plants of the Year

Over the last 9 years, we have selected exceptional varieties from our assortment as our National Plants of the Year. Marketing resources and funds have been dedicated to these plants to build excitement and consumer demand.

This has led to a 47% average variety growth for the National Annual of the Year.

## Social Media

**1.5M** Followers on Facebook  
& Instagram

Through a geo-targeted Mother's Day campaign this spring, we encouraged consumers to shop at their local IGC. We also ran a spring campaign for garden centers carrying Proven Winners Premium Bulbs. Linking to our Find a Retailer page, consumers were able to locate Proven Winners plants in their area.

**Collectively, these campaigns resulted in more than 1.1 million impressions, with 22% of viewers visiting the website to learn more.**

In 2026, we will be expanding these campaigns to encourage consumers to shop locally. Refer to the calendar on page 10 to learn more.

## Content Creators for Your Region

The Proven Winners Content Creators Program leverages social media garden influencers to drive awareness and sales for your garden center. We partner with carefully selected creators across the US and Canada who align with our values, empowering them to develop authentic content that showcases Proven Winners products while inspiring audiences to connect with gardening. This approach helps us reach new customers under the age of 55, who are increasing their reliance on content creators through engaging, educational content that speaks to diverse growing conditions and regional challenges.

Our creators appeal to followers from budding plant-lovers to experienced gardeners, with regional expertise spanning from the rainy Northwest Pacific to the heat of Texas to the clay soils of the Mid-Atlantic.

By building brand awareness and improving plant knowledge among consumers through trusted regional influencers, we're helping drive demand for Proven Winners products that ultimately brings informed, engaged customers to your garden center.

## Online

# 9.5M

Visitors

More than 81,388 unique visitors were from Arizona. Some of the most popular pages visited included Plant Search, Container Recipes and Find a Retailer.

## Audio & Video Ads

# 5.8M

Impressions

Through our partnership with iHeartMedia, we ran a location-based audio and video campaign. Starting in the southern U.S. and moving northwards to align with the spring season, our video ads saw a completion rate of over 98% reaching a highly-targeted audience of gardeners.

## Billboards

Our billboard campaign aims to increase brand recognition and is strategically placed near garden centers carrying Proven Winners plants. A Nielsen study showed that 75% of travelers could recall a billboard from the past month.

In 2026, we will be featuring the National Plants of the Year and increasing the number of weather-triggered boards, while retaining boards in key markets.

# Connect+® Marketing

The Connect+® marketing program helps independent garden centers simplify marketing. With the Promoboxx tool now available to all tiers, Connect+ can help garden centers increase impressions and engagements while reducing the time needed to create social media campaigns—allowing you to spend more time in the garden center with your customers.

New for 2026, all garden centers that complete Certified training will have the opportunity for their inventory to be shared on our website.
